

2014 BC Planning Software Directory

21st Century Software

Rebecca Levesque
940 West Valley Road, Suite 1604
Wayne, PA 19087
610-971-9946
www.21csw.com

Since its founding in 1992, 21st Century Software has led the industry with solutions that ensure IT resiliency. Viewed as an innovator in recovery management, 21st Century Software offers hardware-neutral, mainframe solutions that integrate storage automation across the enterprise, as well as products focused on recovery management, application recovery, allocation management and data migration. 21st Century Software has the comprehensive solutions needed to optimize mainframe utilization and performance, while protecting mission-critical data. The experience of the 21st Century Software development staff runs deep, with senior developers bringing decades of practical experience in the development of business applications and operating system utilities. When it comes to world-class data stewardship, organizations turn to – and trust – 21st Century Software.

Advanced Software Products Group, Inc.
