

2015 BC Planning Software Directory

21st Century Software

Rebecca Levesque
940 West Valley Road, Suite 1604
Wayne, PA 19087
610-971-9946
www.21csw.com

Since its founding in 1992, 21st Century Software has led the industry with solutions that ensure IT resiliency. Viewed as an innovator in recovery management, 21st Century Software offers hardware-neutral,

mainframe solutions that integrate storage automation across the enterprise, as well as products focused on recovery management, application recovery, allocation management and data migration. 21st Century Software has the comprehensive solutions needed to optimize mainframe utilization and performance, while protecting mission-critical data. The experience of the 21st Century Software development staff runs deep, with senior developers bringing decades of practical experience in the development of business applications and operating system utilities. When it comes to world-class data stewardship, organizations turn to – and trust – 21st Century Software.

DRJ DIRECTORY

Disaster Recover Journal publishes five directories per year on a variety of business continuity topics. Our policy is to only edit the information to meet our guidelines. We neither evaluate nor rate any of the participating vendors' products or services. Our goal is to maintain an independent view while sharing information to assist our readers in making successful, well-informed decisions. Contact the vendor directly for further information on any product or service listed in one of our directories.

Advanced Software Products Group, Inc.

David Vertin
3185 Horseshoe Drive South
Naples, FL 34104
800-662-6090
www.aspg.com
david.vertin@aspg.com

MegaCryption is a comprehensive cryptographic toolkit that not only encrypts for data confidentiality, but also provides data

integrity to assure that data has not been compromised, data authentication to verify the origin of the data, and compression to provide the highest level of performance. By encrypting data with MegaCryption, users can securely FTP encrypted data directly from the z/OS platform into the cloud, to remote sites, business partners, disaster recovery centers, and more.

Sungard AS AssuranceCM ushers in the new era of Business Continuity Assurance, extending beyond compliance to deliver what matters most for you: better outcomes and increased confidence. This BCM solution removes the barriers to organization-wide engagement and builds greater confidence in your Plan B. It goes beyond simply addressing compliance requirements. Rather, it is about preparing teams to recognize threats to the business and empowering them to engage locally before incidents lead to major disruptions.

TAMP Systems

Patty Catania

1732 Remson Avenue

Merrick, NY 11566

1-800-252-4080

www.tampsystems.com

patty@tampsystems.com

Business Continuity Consulting Services (BCCS). Many companies are focused on revenue producing activities and

tasks, or just don't have the in-house resources to accomplish and complete a BCM project. Most times, the best way to get busy people to participate in a BCM project is to engage a consulting firm. TAMP's certified senior consultants provide a wide variety of scalable consulting services, some of which include: DRS - disaster recovery system software, business impact analysis (BIA), business continuity plans, pandemic/health crisis plans, disaster recovery plans, Continuity of Operations Plans (COOPs), risk/threat vulnerability assessments, BC/DRP exercises and simulations, BCM preparedness review service, emergency plans, and BCM maintenance programs.
