Emergency Management & Safety Solutions Inc. (EMSS) has been providing professional continuity services in the area of crisis management, business continuity and pandemic planning and exercise design since 1982, and over that time has developed a distinct style of project delivery. EMS Solutions always favors substance over style, results over "window dressing." Our approach to any project is very pragmatic, reflected in an unwavering focus on client satisfaction gained by delivering results. EMSS provides consultation, training, and educational speaking services to some of the world's largest corporations, government agencies, and non-profit organizations on four continents.

Ernst & Young, LLP

Suzie Ray
 220 South Sixth Street, Suite 1400
 Minneapolis, MN 55402
suzanne.ray@ey.com
 612-371-6799

A challenge facing many organizations today is increased risk operating and transforming the technology infrastructure that supports critical business processes. These risks could include: disasters (manmade or natural), infrastructure technical architecture issues related to availability, performance, agility, security (e.g. denial of service), interoperability, or a requirement for rapid adaption or technology transformation brought on by business change. To help organizations combat these risks, EY takes an integrated IT Infrastructure & Service Resiliency (I&SR) approach that addresses both business and technology performance and risk. EY I&SR core service offerings include: business continuity management, data center and disaster recovery strategy, networks and telecom transformation, compute and core services transformation, and storage optimization and data protection.
