

# 2016 BC Planning Software Directory

## Advanced Software Product Group, Inc. [ASPG]

Lisa Hamilton  
3185 Horseshoe Dr South  
Naples, FL 34104  
(800) 662-6090  
[www.aspg.com](http://www.aspg.com)  
[aspgsales@aspg.com](mailto:aspgsales@aspg.com)

MegaCryption is a comprehensive cryptographic toolkit that not only encrypts for data confidentiality, but also provides data integrity to assure that data has not been compromised, data authentication to verify the origin of the data, and compression to provide the highest level of performance. By encrypting data with MegaCryption, users can securely FTP encrypted data directly from the z/OS platform into the cloud, to remote sites, business partners, disaster recovery centers, and more.

## Albion Research Ltd.

Michael Z Bell  
3145 Ridgetop Road  
Dunrobin, Ontario K0A 1T0 Canada  
(613) 832-4834  
<http://www.RiskyThinking.com>  
[sales@riskythinking.com](mailto:sales@riskythinking.com)  
Plan424 is a mobile-first business continuity planning system which ensures staff have access to their parts of the emergency plan when they need it. It features pre-written team plans which can easily be adapted to your needs  
Risk Assessment Toolkit makes it quicker and simpler to create and maintain a Business Impact Assessment, Risk

Register, and to estimate a recovery time line.

## Arcserve

Michael Walsh  
8911 Columbine Road, Suite 110  
Eden Prairie, MN 55347  
(617) 833-5526

[www.arcserve.com](http://www.arcserve.com)  
Michael.Walsh@Arcserve.com  
Arcserve Unified Data Protection (UDP) is the market's first solution to unify backup and

recovery for cloud, virtual and physical IT environments. It wraps enterprise-grade capabilities, such as high availability, instant VM recovery and virtual standby, enterprise storage array snapshots, and advanced Windows and Linux support into one, easily deployable platform that eliminates the need for niche solutions.

## Catalyst, Avalution Consulting

Ryan Hutton  
323 West Lakeside Avenue, Suite 410  
Cleveland, OH 44113  
[ryan.hutton@avalution.com](mailto:ryan.hutton@avalution.com)  
[bccatalyst.com](http://bccatalyst.com)  
(866) 533-0575

**Derek.Bluestone@sungardas.com**

Sungard Availability Services'

AssuranceCM business continuity software prepares teams to recognize and plan for threats – whether natural or man-made – and empowers them to intervene before incidents lead to major disruptions. Sungard AS' suite extends beyond compliance and spans the continuum of business continuity needs, including emergency notification and incident management, work area recovery plans, and mobile recovery units. Customers can rest easy knowing they can minimize downtime and resume productivity quickly following an incident.

### **TAMP Systems**

**Patty Catania**

**1732 Remson Avenue**

**Merrick, NY 11566**

**(800) 252-4080**

**www.tampsystems.com**

**patty@tampsystems.com**

TAMP's award-winning BCM Software (DRS) provides functionality to manage and roll up documents, spreadsheets, inventory lists, graphics and flowcharts into one plan. It also integrates with the most popular programs that are already on your desktop, i.e., the Microsoft office products. And, DRS easily passes the most stringent audit and regulatory requirements. TAMP's web-based Business Continuity Management (BCM) software is named the Disaster Recovery System (DRS), which is provided as a Software as a Service (SaaS) or client-hosted model. The DRS software creates plans, keeps plans up-to-date and manages BCM data. TAMP's Consulting Services include the development of the Risk-Threat Assessment and Business Impact Analysis (BIA). In addition, TAMP provides plans for business continuity, emergency plans, disaster recovery, crisis management, pandemics, workforce

interruptions and other disaster incidents. Many of TAMP's clients benefit from its turn-key planning services.

### **TierPoint**

**John Holland**

**12444 Powerscourt Drive, Suite 450**

**St. Louis, MO 63131**

**(844) 267-3687**

**www.tierpoint.com**

**sales@tierpoint.com**

Software Defined DRaaS Program — a suite of capabilities managed, monitored, and delivered by TierPoint that focuses on: Hybrid Complexity - Recognizing the hybrid complexity of deployed DR assets, in the Cloud, as well as at the customer's premise. Managed Resilience - Providing managed resilience across all DR assets (tools), not just those that are Cloud-based. Software-Defined Integration - Embracing software-defined technologies to enable users to integrate this complexity and access these DR assets more effectively.
