ANAO Better Practice Guide: Business Continuity Management - Building resilience in public sector entities. June 2009	Std	ANAO (Australian National Audit Office)	Australia, New Zealand	Business continuity management is an essential component of good public sector governance. It is part of an entity's overall approach to effective risk management, and should be closely aligned to the entity's incident management, emergency response management and IT disaster recovery. Successful business continuity management requires a commitment from the executive to raising awareness and implementing sound approaches to build resilience. This Guide has been produced following consultation with Australian Government and private sector entities. The Guide provides a refreshed version of a previous ANAO Guide. The new version is presented in a more user-friendly format, and includes contemporary practical advice, case studies and references as well as exploring issues within the business continuity environment that have arisen since the previous ANAO publication. The Guide will be a useful reference document for boards, chief executives and senior management in public sector entities	6/1/2009 6/26/2017	Wat	Removed from ANAO Website July 1, 2017 - Link to support this removal updated in Column "I" Publications from 2007 to 2015	https://www.anao.gov.au/work/better-practice-guide/review-anao-better-practice-guides	✓	✓	✓	✓	✓	✓	✓

ASIS American National Standard - Organizational Resilience: Security, Preparedness and Continuity Management Systems - Requirements with Guidance for Use Standard (2009)	Std	ASIS SPC.1-2009	U.S.A.	This management system Standard (referred to as the "Standard") has the applicability in the private, not-for-profit, non-governmental, and public sector environments. It is a management framework for action planning and decision making needed to anticipate, prevent if possible, and prepare for and respond to a disruptive incident (emergency, crisis, or disaster). It enhances an organization's capacity to manage and survive the event, and take all appropriate actions to help ensure the organization's continued viability. Regardless of the organization, its leadership has a duty to stakeholders to plan for its survival. The body of this document provides generic auditable criteria to establish, check, maintain, and improve a management system to enhance prevention, preparedness (readiness), mitigation, response, continuity, and recovery from disruptive incidents.	Mar 2009	Wat	Organizational Resilience: Security, Preparedness and Continuity Management Systems - Requirements with Guidance for Use Standard(ASIS SPC.1-2009); document may be purchased	https://www.ndsu.edu/fileadmin/emgt/ASIS_SPC.1_2009_Item_No._1842.pdf	✓	✓	✓	✓	✓	✓	✓
B.C. Emergency Program Act	Reg	Ministry of Justice and Attorney General, Emergency Management British Columbia	Canada	Multi-agency hazard plans for B.C. are prepared and updated regularly by the Province to ensure an effective strategy is in place to address many possible types of emergencies and disasters. These plans foster cooperation among multiple organizations. They focus on public safety, infrastructure and property protection and management of the aftermath of events. British Columbia's comprehensive emergency management system promotes a coordinated and organized response to all emergency incidents and disasters. The structure provides the framework for a standardized emergency response in the province.	Mar 2018	Enf	The Provincial Emergency Program (PEP) is a division of the Ministry of Justice and Attorney General, Emergency Management British Columbia, Canada.	http://www.bclaws.ca/EPLibraries/bclaws_new/document/ID/freeside/oo_96111_01

Basel III: A global regulatory framework for more resilient banks and banking systems	Reg	Basel Committee on Banking Supervision	International	This document, together with the document Basel III: International framework for liquidity risk measurement, standards and monitoring, presents the Basel Committee's reforms to strengthen global capital and liquidity rules with the goal of promoting a more resilient banking sector. The objective of the reforms is to improve the banking sector's ability to absorb shocks arising from financial and economic stress, whatever the source, thus reducing the risk of spillover from the financial sector to the real economy. This document sets out the rules text and timelines to implement the Basel III framework.	Jun 2011	Wat	In July 2013, the Federal Reserve Board finalized a rule to implement Basel III capital rules in the United States, a package of regulatory reforms developed by the BCBS. The comprehensive reform package is designed to help ensure that banks maintain strong capital positions that will enable them to continue lending to creditworthy households and businesses even after unforeseen losses and during severe economic downturns.	http://www.bis.org/publ/bcbs189.pdf	✓						
BCI Knowledge Bank - Regulations, Standards & Guidelines	Std	BCI (Business Continuity Institute)	International	The BCI is regularly asked by members and other interested parties about current legislation, regulation and standards that exist nationally and internationally for Business Continuity Management. It is difficult to provide a definitive list because there are regular changes and amendments at a country level and often inconsistent terminology between countries, sectors and legislators.	May 2012	Wat	Lists ISO 22301, BCI Good Practice Guidelines, AZ/NZS 5050:2010, and PAS200	http://www.thebci.org/index.php/regulations-legislation-standards-guidelines	✓	✓	✓	✓	✓	✓	✓
Bill 198 (Canadian SOX)	Reg	Ontario Government	Canada	Bill 198 deals with virtually all of the same issues as Sarbanes-Oxley, including auditor independence, audit committee responsibilities, CEO and CFO accountability for financial reporting and internal controls, faster public disclosure, and stiffer penalties for illegal activities. The most significant difference between the US SOX and C-SOX: - Canadian companies do not have to submit an external auditor attestation of the adequacy of internal controls. - Canadian companies are supposed to deliver a "reasonable assurance" of preventing risk of material misstatement. And to give that assurance, the companies are supposed to show high level of commitment, care and meticulousness for reviewing and documenting their internal controls.	Apr 2003	Enf	Shortly after the bill was passed, Canadian securities commissions issued three additional regulations: Multilateral Instrument (MI) 52-108, MI 52-109 and MI 52-110.	http://www.ontla.on.ca/web/bills/bills_detail.do?locale=en&BillID=1067	✓

BS 65000 - Guidance on organizational resilience	Std	Business Standards Institute (BSI) (UK based)	International	<p>The BS 65000 provides clarity and guidance, describing the nature of resilience and ways to build and enhance resilience in your organization.</p> <p>BS 65000 defines organizational resilience as the ability to anticipate, prepare for, respond and adapt to events – both sudden shocks and gradual change. That means being adaptable, competitive, agile and robust.</p> <p>One way to improve resilience is by integrating and coordinating the various operational disciplines in an organization, so BS 65000 draws on other standards relating to these disciplines. Most organizations work within a complex web of interactions. The standard recognises that it is essential to build resilience not only within an organization but across networks and in partnership with others.</p> <p>Using agreed terminology, BS 65000:</p> <ul style="list-style-type: none"> clarifies the meaning of resilience highlights the key components of resilience helps an organization to measure its resilience and make improvements identifies good practice found in other disciplines and defined in existing standards 	Nov 2014		BS 65000 is intended for anyone responsible for building resilience in their organizations. That includes risk managers and continuity practitioners and those involved with governance, emergency management and supply chain management.	http://shop.bsigroup.com/ProductDetail/?pid=00000000030258792	✓	✓	✓	✓	✓	✓	✓

FISMA: Federal Information Security Management Act of 2002	Reg	Federal Trade Commission (FTC)	U.S.A.	Title III of the E-Government Act (Public Law 107-347, passed in 2002) entitled the Federal Information Security Management Act (FISMA) and requires each federal agency to develop, document, and implement an agency-wide program to provide information security for the information and information systems that support the operations and assets of the agency, including those provided or managed by another agency, contractor, or other source. The Federal Information Security Modernization Act of 2014 (link: https://www.congress.gov/bills/113th-congress/senate-bill/2521/text) amends the Federal Information Security Management Act of 2002 (FISMA) provides several modifications that modernize Federal security practices to address evolving security concerns. These changes result in less overall reporting, strengthens the use of continuous monitoring in systems, increased focus on the agencies for compliance, and reporting that is more focused on the issues caused by security incidents.	Jan 2003	Enf	May apply to organizations and institutions communicating with, performing work for, on behalf of a federal agency.	https://en.wikipedia.org/wiki/Federal_Information_Security_Management_Act_of_2002 https://en.wikipedia.org/wiki/Federal_Information_Security_Management_Act_of_2002	✓	✓	✓	✓	✓	✓	✓
FRB (Federal Reserve Banks) SR 13-1 / CA 13-1 (extends SR 03-5)	Reg	Board of Governors of the Federal Reserve System	U.S.A.	SR 13-1 guidance explains changes over the past several years in banking regulations related to auditor independence and limitations placed on the external auditor. This supplemental policy statement builds upon the 2003 Policy Statement SR 03-5, which remains in effect, and follows the same organizational structure, with a new section entitled "Enhanced Internal Audit Practices" and updates to Parts I-IV of the 2003 Policy Statement. (Extends: Amended Interagency Guidance on the Internal Audit Function and its Outsourcing SR 03-5) (Supersede: Outsourcing of Information and Transaction Processing Cross Reference: SR letter 97-35)	Jan 2013		Reserve Banks are asked to distribute this supplemental guidance to supervised institutions with greater than \$10 billion in total consolidated assets, including state member banks, domestic bank and savings and loan holding companies, and U.S. operations of foreign banking organizations, as well as to their supervisory and examination staff, as appropriate.	http://www.federalreserve.gov/bankinfo/foreg/srletters/sr1301a1.pdf	✓						
FRB (Federal Reserve Banks) SR 13-19 / CA 13-21	Reg	Board of Governors of the Federal Reserve System	U.S.A.	SR 13-19 Guidance on Managing Outsourcing Risk assists financial institutions in understanding and managing the risks associated with outsourcing a bank activity to a service provider to perform that activity, and include Business Continuity and Contingency considerations. This Federal Reserve guidance builds upon the FFIEC Outsourcing Technology Services Booklet (2004) that addresses outsourced information technology services and remains in effect.	Dec 2013		Guidance applies to all financial institutions supervised by the Federal Reserve, including those with \$10 billion or less in consolidated assets. It supplements existing guidance on technology service provider (TSP) risk and applies to service provider relationships where business functions or activities are outsourced. This Guidance is cross-referenced with SR Letter 13-1/CA 13-1, "Supplemental Policy Statement on the Internal Audit Function and Its Outsourcing".	http://www.federalreserve.gov/bankinfo/foreg/srletters/sr1319.htm	✓

NIST SP 800-53 r5 Security and Privacy Controls for Federal Information Systems and Organizations	Std	NIST (National Institute of Standards and Technology)	U.S.A.	The purpose of this publication is to provide guidelines for selecting and specifying security controls for organizations and information systems supporting the executive agencies of the federal government to meet the requirements of FIPS Publication 200, Minimum Security Requirements for Federal Information and Information Systems. The guidelines apply to all components of an information system that process, store, or transmit federal information. The guidelines have been developed to achieve more secure information systems and effective risk management within the federal government	Aug 2017	Enf		https://csrc.nist.gov/CSRC/media/Publications/sp800-53/rev.5/draft/documents/sp800-53r5-draft.pdf	✓	✓	✓	✓	✓	✓	✓
OCC 2000-14: Infrastructure Threats – Intrusion Risks (May 15, 2000)	Reg	OCC	U.S.A.	This bulletin provides guidance to financial institutions on how to prevent, detect, and respond to intrusions into bank computer systems. Intrusions can originate either inside or outside of the bank and can result in a range of damaging outcomes, including the theft of confidential information, unauthorized transfer of funds, and damage to an institution's reputation.	2000	Enf	This bulletin provides guidance in each of these critical areas and also highlights information-sharing mechanisms banks can use to keep abreast of current attack techniques and potential vulnerabilities.	http://www.occ.gov/news-issuances/bulletins/2000/bulletin-2000-14.html	✓						✓
OCC 2001-47: Third-Party Relationships (November 1, 2001)	Reg	OCC	U.S.A.	This bulletin provides guidance to national banks on managing the risks that may arise from their business relationship with third parties. A third party's inability to deliver products and services, whether arising from fraud, error, inadequate capacity, or technology failure, exposes the bank to transaction risk. Lack of effective business resumption and contingency planning for such situations also increases the bank's transaction risk. The contract should provide for continuation of the business function in the event of problems affecting the third party's operations, including system breakdown and natural (or man-made) disaster.	Nov 2001		The bank's own contingency plan should address potential financial problems or insolvency of the third party. As of May 17, 2012, this guidance applies to federal savings associations in addition to national banks	http://lthandbook.ffiec.gov/media/resources/3333/occ-bul_2001_47_third_party_relationships.pdf	✓						✓

OCC 2008-6: FFIEC (February 2015)	Reg	OCC	U.S.A.	The Federal Financial Institutions Examination Council (FFIEC) released an updated Business Continuity Planning Booklet (booklet), which is one of 11 that, in total, comprise the FFIEC IT Examination Handbook. The enterprise-wide perspective taken on business risk and human elements makes this booklet a valuable tool to the entire organization in addition to the information technology department.	2015	Enf	This "Business Continuity Planning" booklet is one in a series of booklets that comprise the Federal Financial Institutions Examination Council (FFIEC) Information Technology (IT) Examination Handbook. This booklet provides guidance to assist examiners in evaluating financial institution and service provider risk management processes to ensure the availability of critical financial services.	http://ithandbook.ffiec.gov/it-booklets/business-continuity-planning.aspx	✓						✓
OCC 2013-29: Third-Party Relationships - Risk Management Guidance (October 30, 2013)	Reg	OCC	U.S.A.	This bulletin provides guidance to national banks and federal savings associations (collectively, banks) for assessing and managing risks associated with third-party relationships. A third-party relationship is any business arrangement between a bank and another entity, by contract or otherwise the bank to transaction risk. Lack of effective business resumption and contingency planning for such situations also increases the bank's transaction risk. The contract should provide for continuation of the business function in the event of problems affecting the third party's operations, including system breakdown and natural (or man-made) disaster. OSFI Guideline B-10 - Outsourcing of Business Activities, Functions and Processes	Reg	Office of the Superintendent of Financial Institutions Canada (OSFI)	Canada	An FRE's business continuity plan should address reasonably foreseeable situations (either temporary or permanent) where the service provider fails to continue providing service. The business continuity plan and back-up systems should be commensurate with the risk of a service disruption. In particular, the FRE's business continuity plan should ensure that the FRE has in its possession, or can readily access, all records necessary to allow it to sustain business operations, meet its statutory obligations, and provide all information as may be required by OSFI to meet its mandate, in the event the service provider is unable to provide the service.	39873	Enf		http://www.osfi-bsif.gc.ca/Eng/Docs/b10.pdf	✓						
OSFI Guideline B-9 - Earthquake Exposure Sound Practices	Reg	Office of the Superintendent of Financial Institutions Canada (OSFI)	Canada	Insurers must have contingency plans in place to ensure continued efficient business operations. The contingency plan should address the key elements of claims management, such as emergency communications links, availability and adequacy of claims and adjustment service personnel, and off-site systems back-up, that also includes reinsurance records.	2013	Enf	Document define OSFI's expectations relating to P&C insurers' earthquake exposure risk management. This guideline outlines the framework for quantifying earthquake exposures for regulatory purposes and assessing insurers' capacity and financial preparedness to meet contractual obligations that may arise from a major earthquake.	http://www.osfi-bsif.gc.ca/eng/ff-if/rg-ro/gdn-ort/gl-ld/Pages/bg.aspx	✓

OSHA - Occupational Safety and Health Administration	Reg	OSHA (Occupational Safety and Health Administration)	U.S.A.	Some businesses may be required by regulation to establish Emergency Action Plans meeting certain requirements (see 29 CFR 1910.38 and OSHA's compliance policy). Effective plans should take into account what personal protective equipment workers may require, as well as other resilience resources for emergency responses. Employers should also be aware that some states have OSHA-approved occupational safety and health plans that may have more stringent requirements than what Federal OSHA requires.	Nov 2002	IAI	An emergency action plan must be in writing, kept in the workplace, and available to employees for review. However, an employer with 10 or fewer employees may communicate the plan orally to employees.	https://www.osha.gov/pls/oshaweb/owadisp.show_document?p_table=STANDARDS&p_id=9726	✓	✓	✓	✓	✓	✓	✓
Outsourcing Technology Booklet	GP	FFIEC	U.S.A.	The institution should understand all relevant service provider business continuity requirements, incorporate those requirements within its own business continuity plan, and ensure the service provider tests its plan annually. Management should require the service provider to report all test plan results and to notify the institution after any business continuity plan modifications. The institution should integrate the provider's business continuity plan into its own plan, communicate functions to the appropriate personnel, and maintain and periodically review the combined plan.	2007 / 2011	Wat	NOTE: Although the webpage indicates 2007 as the previous revision, one of the Word versions (when opened) states 2011. The "Outsourcing Technology Booklet" is one of several that comprise the Federal Financial Institutions Examination Council (FFIEC) Information Technology Examination Handbook (IT Handbook). The outsourcing risk management program should identify, for Business Continuity Planning (BCP) purposes, the specific responsibilities of all parties, particularly in the areas of information security and business continuity planning.	http://it handbook.ffiec.gov/it-booklets/outsourcing-technology-services.aspx	✓						
Oversight of the South African National Payment System	Reg	South African Reserve Bank	South Africa	One of the requirements for participation in the SAMOS system is to have sufficient business continuity planning (BCP) and DR facilities in place. Business continuity risk management - The Bank's business continuity management (BCM) programme is based on the BCM lifecycle model, as defined by the Business Continuity Institute UK. This is widely recognised as the international good practice guideline for BCM development and management. The Business Continuity Institute's lifecycle model consists of the following elements: BCM policy and programme management Embedding BCM in the organisation's culture Understanding the organisation Determining BCM strategy Developing and implementing a BCM response Exercising, maintaining and reviewing	2010	Enf		https://www.resbank.co.za/AboutUs/RiskManagement/Pages/RiskManagementApproachAndMethodology.aspx	✓

Categories (column B):

Standard (Std) Level of quality accepted as norm, typically published by a professional organization of governing body, and is often an auditable standard.

Regulation (Reg) An official rule, law, or order stating what may or may not be done or how something must be done. Issued by a government department or agency.

Good Practice (Leading Practice, Guide, or Guidelines) Recommendation indicating a technique or methodology that, through experience & research, has proven to reliably lead to a desired result. Typically published by a professional organization of governing body.

Enforcement (column G):

Enforced (Enf) Most frequently enforced for compliance purposes

Ambiguous (Amb) Further clarification regarding strong ties with Business Continuity need to happen

Watch List (Wat) Participating members should be looking for the presence of this item within the coming months/years

Invocation at Incident (IAI) Likely to be invoked or brought to bear as a result of an "incident" occurring involving your organization
