An IBM Business Partner since 1987, UCG is one of the largest independent IBM i business partners and has been rated in the top 1% of IBM business partners globally.

Veeam

Rick Vanover
rick.vanover@veeam.com

Veeam® recognizes the new challenges companies across the globe face in enabling the Always-On Enterprise™, a business that must operate 24.7.365. To address this, Veeam has pioneered a new market of Availability for the Always-On Enterprise™ by helping organizations meet recovery time and point objectives (RTPO™) of less than 15 minutes for all applications and data. Veeam Availability Suite™, which includes Veeam Backup & Replication™, leverages virtualization, storage, and cloud technologies that enable the modern data center to help organizations save time, mitigate risks, and dramatically reduce capital and operational costs, while always supporting the current and future business goals of Veeam customers.

Veritas

500 E. Middlefield Rd Mountain View, CA 94043
(866) 837-4827
www.veritas.com

The exponential growth of data and the resources needed to manage it is one of the most pressing issues facing business today. And it's not just the amount of data. It's where it lives and how it travels between private clouds, public clouds and back to on premises. In these increasingly complex IT environments, it's important to focus on what's constant: the data. Every one of our information management solutions – from business continuity to back up and recovery to software defined storage and information governance – is designed around the principle that information is more important than infrastructure. Veritas has the privilege to help the world's organizations – including 86% of the global Fortune 500 – collect, protect, analyze and optimize their data, even in the most demanding environments.
