"Easy to use," is the most used phrase by our clients to describe Sustainable Planner®. Self-hosted or through our Software as a Service (SaaS) option, the software is competitively priced based on the number of user licenses purchased, no matter the user type. The software contains ready-to-use, standards-compliant templates, which can also be modified or customized as required by each client. Sustainable Planner provides templates for BC, DR, Crisis Mgt, Pan-demic, Emergency Operations, and Continuity of Operations (COOP) plans. It provides assessments for CDC Risk, Hazards and Vulnerabilities, BC Program Maturity (BCMM), and Third Party Vendor Management – essentially all reports and assessments you will need to build out your BC Program! Lastly, Virtual provides both technical support of the tools and consulting services to fine-tune them – all intended to help you quickly accelerate your BCM programming and help you make your organization more resilient.
