dollars in global-market assets for today's leading companies. Our number one goal is to provide a high-profile presence that sends a clear message that we are serious about protecting your organization's assets and staff. Could you maintain business as usual in the face of disruption? When it comes to Business Continuity and business in general, different organizations will have different needs, but it all comes down to that question. With experience across multiple industries, MHA Consulting has full capability to create plans for complex problems to meet concise solutions. Don't let your business resiliency fall by the wayside because of short staffing, lack of technical knowledge or other business pressures. We offer a complete portfolio of consulting services to assess, implement, exercise and maintain the maturity and sophistication of your business continuity program. The MHA Consulting team has more than a century of business continuity and disaster recovery experience. A proven leader in business continuity planning, disaster recovery planning, IT best practices, and crisis management, MHA helps you from program conception to maintenance by providing actionable guides and presentations written by industry thought leaders. Our software, BCMMETRICS™ delivers a comprehensive evaluation, measurement, and scoring of your business continuity management (BCM) program with "FICO" like scores so that you can heighten the sophistication of your BCM program over time.
